Professional Summary

Frontend Developer with practical experience building responsive web applications using React.js, JavaScript, HTML5, and CSS3. Completed a software development internship involving frontend development, REST API integration, and debugging. Built and deployed task management, portfolio, and weather applications.

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Bootstrap

Tools: Git, GitHub, VS Code, Chrome DevTools, Vite, Vitest

Concepts: Responsive Web Design, REST API Integration, DOM Manipulation, Cross-browser Compatibility

Experience

Full Stack Software Development Intern

AiROBOSOFT Products and Services LLP, Bengaluru | Jan 2025 – Feb 2025

- Completed a full stack software development internship, working on a fundraising web application built with React.js
- Developed frontend pages for login, signup, campaign creation, and donation tracking, and connected them to backend APIs
- Collaborated with the development team on debugging, code reviews, and feature testing throughout the project

Projects

WorkMate – Task Management Application

React.js, JavaScript, HTML5, CSS3

Live: affan-anwar.github.io/WORKMATE

- Built a task management application with add, delete, completion, priority, and category features
- Created reusable controlled-form components and managed parent-child communication using props and callbacks
- Implemented persistent task filtering and progress tracking using React state and localStorage

Personal Portfolio Website

React.js, JavaScript, CSS3, Vite

Live: affan-anwar.github.io/affan-dev-react-portfolio

- Developed a responsive portfolio website for desktop, tablet, and mobile devices
- Built reusable components, smooth section navigation, and active navigation-link highlighting
- Integrated Formspre for contact form submissions and added dynamic copyright-year functionality

SkyCast – Weather Forecast Web App

React.js, Vite, Tailwind CSS, JavaScript

Live: affan-anwar.github.io/skycast-weather-app

- Integrated Open-Meteo and OpenStreetMap Nominatim APIs to display live weather and location data
- Implemented asynchronous API handling with loading states and error handling
- Added request caching and rate limiting for efficient API usage

Education

Bachelor of Engineering (B.E.) – Computer Science & Engineering

Khaja Bandanawaz University, Kalaburagi, Karnataka | 2021 – 2025 | CGPA: 6.54

Professional Strengths

- Problem-solving and analytical thinking
- Adaptability and quick learning
- Team collaboration and communication
- Time management and organization
